The Rooster or the Dog Law--Which?

BY HARVEY TYREE.

BEFORE THE ELECTION.

A Pastoral of Prophecy.

I have always been a Democrat. This fact I don't deny; But I'll pass the rooster by, this time, I will tell you the reason why. I can't endorse the new tax laws. For I do not believe they are right; I'm against Beckham and his old machine And for Langley in this fight. They've taxed everything we have. Our chickens, pigs and sheep; I've been so mad for the last two months That I could hardly sleep. They have even taxed our old coon dogs, Poor old Fido, Watch and Tray; Our boys have pulled their tails and ears, And played with them many a day. If you have a picture of a mother, dear, Or a father, aged and gray, They tax them as a work of art For which they make you pay. How did they miss that old tom cat— They surely did forget; Beckham should call an extra session And tax that old cat, yet. He's about all that we have left That is exempt from tax; Now, men, you know this is no joke, For I'm telling you the facts. Another thing about that tax, It must be paid when due, or They'll arrest you—take you to jail— And may be hang you, too. Some say Beckham is a mighty man. Well, think so if you choose; He's worn Bill Goebel's coat six years And now wants McCreary's shoes. Perhaps he is a very great man, That is for us men to say; Is he qualified to take the seat Occupied by Crittenden and by Clay? I write this to satisfy some men, And put their minds at ease; I am free and independent yet, And vote just as I please. I know I'm poor and not much account, But I do the best I can; I wear no collar that I can't take off, For I don't belong to any man. I see Bryan's broken loose again With a platform bright and new; He wants to confiscate the railroads now, He says that's the thing to do. Well, I don't know; perhaps he's right, And that's the thing to do; If they take all a poor man has Why not rob the rich man, too? Well, I don't own any railroads— Just two dogs and one old cow— And they've got the tax so high on them That I'll have to kill them, now. Good bye, old rooster, I must leave you now Though it's rather hard to do; When you crow for right and justice I will come back to you. There's going to be a storm in this old State, Now, remember what I say— We will rip that rooster up the back On next election day. You old Radicals must come to me— Of course I know you will— Next week I mean to be baptized By Col. R. C. Hill.

George Allen has been recommended by Representative-elect Langley for postmaster at Noble, this county. The appointment will be made next week.

AFTER THE ELECTION.

How Would a Buzzard Do?

Oh, did you hear that mighty storm As it came sweeping by? I thought I heard a rooster squall, And I seen some feathers fly. The election now is over, The feathers all flown away; Langley killed every rooster that we had— Why, my hens won't even lay! That rooster was old and could not fight, You know that this is true; Next fall let's try another fowl— How would a buzzard do?

Beckham and Hager are still on top, But they'd better not forget Tho' they have those nominations, They are not elected yet. They had better oil that old machine, And examine the running gear; We have sent Hopkins up the spout— We'll attend to them this year. That machine's now getting old, I don't think that it will do; They'd better get another if they can For next fall they'll need two. They have defeated McCreary, And Uncle Joe Blackburn, too, The great battle's to be fought this year And they'll meet their Waterloo! Some say Beckham is but a boy And does the best he can; Well, a boy may do for a Governor But a Senator should be a man. If he should go up to Washington, Now what would he do, then? There are no boys there to play with him, For the Senators, they are MEN. Now, just a word to Hopkins On which he may depend; It does not pay to act the traitor To a true and loyal friend. You know what he told Judge Cooper— Well, I don't say that he lied— He said, "Give up the track," two years ago, And this time he'd stand aside. The Democratic party is for the poor— You know that's what they teach; That doctrine, it is very good If they'd practice what they preach. They say a Democrat will not cross, They say it is a shame; But under this secret ballot, though, They got there just the same. There are many men just like myself, Just a poor old Democrat, But I will not vote for a party or men Who will tax a dog or a cat. I never was no man to joke; I am trying to tell the facts, For I killed the last old dog I had Because I could not pay those tax. My little boys are in trouble now, They cry most every day; And say don't vote for those wicked men, For they killed our faithful Tray. Now, Democrats, don't get mad at me, For I love every one of you, And I would love to see you all repent, For I'm sorry for you, too. I have about six brothers yet, Who are out in darkness and sin— O, may they see the error of their way And also enter in. Bob Hill says he'll take you in; Glad to see all men repent, To save poor lost Democrats He thinks he has been sent. So study this matter over And ponder on what I say;

We can be baptized together Almost any day.

Now, I write this for no joke, I believe it, every word; If there's any old rooster that did escape, Next fall we'll kill that bird.

Dear Editor—You will please find my check for two dollars to pay S. S. Jett & Co.'s subscription. I am always glad to get your paper, for it is like getting a letter from home. Notwithstanding my absence for over twenty years from the land of my birth, it still feels near and dear to me, for the happiest days, those of my childhood, were spent in old Breathitt, and I still think of them with fond recollection. I am certainly glad to see that there are enough good people that are trying to maintain law and order after so much crime, and I trust assassination is at an end and that the guilty will soon get their reward meted out to them. I hope to visit my old Kentucky home some time, and especially my old home in Breathitt county. I hope to see you in person again some time, and allow me to assure you that the world is with you in your stand for right and justice, and it will not be long till right will be triumphant over all. Again thanking you for your paper, I am your friend,

HIRAM C. JETT.

Shot From Ambush.

Milton Martin, son of ex-County Judge David Martin, of Knott county, was fired on from ambush a few days ago on Beaver Creek, by persons who had hid in the woods near the public road. He was shot twice, but not seriously. David Martin, the boy's father, was assaulted at the same place, and was hit several times with stones. Warrants were issued charging Wyatt Martin's sons with shooting at with intent to kill.

HON. A. T. SILER,

Candidate for Railroad Commissioner.

[Cincinnati Intruder]

Covington and Newport are for A. T. Siler for re-election, because he has stood by them and their interests. Mr. Siler should be renominated and elected, because he has had one term of office and is better fitted to serve his people a second term. The Republican party in the third railroad commission district has heretofore gone on record at all times for a second term in this office. No man in office has ever done more for his people during a term of office than Mr. Siler has. He has been active in season and out of season and the shippers of Kentucky know this to be true. The people who have to deal with the railroads are rallying to the support of Mr. Siler in every county in the district. The Intruder desires to go on record now as favoring his nomination and election. Besides endorsing a faithful public servant, it means strength to the Republican party among the masses of the people, where, and in whose behalf A. T. Siler has been active as an officer. We think Republicans without a dissenting voice should go to their convention on April 20, 1907, and vote for him.

Jesse Wilson, aged 99, died at the home of his son, Robert, at Sturgeon, Owsley county, Sunday night. He leaves a large family.

FRIDAY, FEB. 1.

CORRESPONDENCE.

QUICKSAND.

Duvall Back and family left last Sunday for the West to make their future home.

Rev. and Mrs. E. T. Preston, of "Raven Roost," visited the home of Shug Frazier last Friday.

The roads are bad in this neighborhood and the mud is so deep in some places that it is almost impossible to pass.

The smiling face of James R. Back, of Round Bottom, was seen here last Thursday. Come, again, Jim, we are glad to see you.

Miss Hattie C. Kraul, one of our Sunday school teachers, has gone on a visit to friends and relatives in Chicago. We are sorry to lose Miss Hattie, as she was an earnest worker in the Soul Winner Society.

We think G. W. Whittaker has recovered from the Territory fever, as he is improving his farm at present. There are some others around here who seem to have caught the fever and are talking of going to the West.

Michael Robinson purchased 200 ties during the last tide and when he had them inspected they were found to be nearly all culls and black oaks. Mike says "no more tie inspecting for him" and that he will get somebody to inspect in his place next time.

We think Quicksand is right in the heart of the world. We have a nice Sunday school every Sunday, a store and postoffice, and had a good school, with J. F. Frazier as teacher, which closed a few weeks ago. We can also get plenty of whisky but we don't need it.

FIRST ROSE OF SUMMER.

ROUSSEAU.

John Hensley is building on his wife's farm.

A. B. Risner bought a mule and a calf from Gale Howard.

Our people are very angry about the blowing up of Lovely's mill with dynamite.

Gale Howard is selling out, preparing to go West about the middle of February.

People, if you don't want to see the devil stay away from Wolfe creek. It is said that he lives there.

Mrs. Elihue Clemons is very low with a cancer, and is waiting the coming of Christ to take her home to heaven.

CLEMONS.

Born, to Mr. and Mrs. Rose Barnett, a girl.

Brisson Fugate went to Jackson Saturday on business.

Preston Fugate is preparing to build a house on his farm near Ben Clemons.

Mrs. Nellie Combs visited Ben Clemons and other relatives here the past week.

Mrs. Margaret Barnett has gone to a hospital in Lexington to have an operation performed.

Revs. Daniel McIntosh, S. P. Carpenter and M. D. Richie preached interesting sermons at the residence of Elihue Clemons Sunday.

One of THE NEWS correspondents writes of a tree being cut in Breathitt county that made 80 first-class railroad ties. Dan Strong, one of our citizens of this county, cut an oak tree this winter out of which he made 8,000 2 ft. boards, 600 piling slats and 60 first-class railroad ties. Who can turn him down with a more valuable tree?

The Supervisors of the county were in session last week and finished up their business. They report the total value of property, etc., listed for taxation in Owsley county for the year 1907 to be \$933,368. They raised the value of property, etc., from what it had been listed to the Assessor to the amount of \$63,080. They also report that 954 dogs have been listed in the county for taxation, and would be glad to hear from a county that lists more dogs for taxation than Owsley.

Mr. Ackert, Vice-President & General Manager of the Southern Railway Company said today:

"Some question seems to have been made in the newspapers recently as to the age of the operators employed on our line. While this comment has been made in connection with the catastrophe which happened Thanksgiving morning near Lawyers, Virginia, in which President Spencer lost his life, no such question could properly arise in connection with that accident because the operator there at fault was 22 years old.

"These comments have, however, caused me to make special investigation to ascertain definitely the age of operators employed on other standard lines. I find that the ages of operators on our own line are well up to the standard age, it being universally considered that an operator, if of sufficient intelligence, is entirely reliable for such work at 18 years of age, which is the age permitted by statute in one or more states. Some well managed companies accept operators at 16 years of age, if their character and intelligence justify.

"While heretofore the Superintendents and Trainmasters have inspected the offices and the work of our block operators, we are now inaugurating a system of special inspectors who will devote their entire time to this duty and act under the direction of our chief dispatchers.

"This system of requiring the block sheets to be filled in the Chief Dispatcher's office was discarded by us sometime ago because of the possibility of fixing up such sheets before they were sent in and hence this would give us no reliable information as to the actual performance of duty by the operators. It has been determined that inspection of the work itself at unexpected periods and at irregular intervals is a more reliable and satisfactory test of the fidelity and efficiency of the operators. This is the method we have been pursuing and under the system of special inspection will continue."

Alfred P. Thom, General Counsel of the Southern Railway Company and P. J. Conlon, First Vice-President of the International Association of Machinists, two of the arbitrators selected to determine on the wage scale to be paid machinists on the Southern Railway Company have reached an agreement without the necessity of calling on Judge George Graw, of Delaware, who was selected as the third arbitrator. The award thus reached by Mr. Thom and Mr. Conlon is as follows:

"That Southern Railway Company grant to the machinists at all

the shops of the Company, except the shops at Birmingham and Sheffield, an increase of two cents per hour over the pay such machinists were respectively receiving per hour on the thirty-first day of August in the year nineteen hundred and six; and do grant to the machinists at the shops at Birmingham and Sheffield, respectively, an increase of one and one half cents per hour over and above the pay such machinists were respectively receiving per hour on the said thirty-first day of August in the year nineteen hundred and six and do grant to apprentices at all the shops an increase of one cent per hour over and above the pay such apprentices were respectively receiving per hour on the thirty-first day of August in the year nineteen hundred and six.

The wage scale as fixed by this arbitration is to be effective as of September first nineteen hundred and six and shall remain in effect as between the Company and the machinists and apprentices until the fifth day of November in the year nineteen hundred and seven.

All the parties are employed at the Camp.

Slower Speed Basis.

Following is the copy of a telegram which T. C. Powell, Fifth vice-President of the Southern Railway has just received from Mr. W. W. Finley, President of this company:

"Owing to the crowded condition of some of its single track lines and the double track work, including the revision of grades and alignment, now under way, for the purpose of relieving the crowded condition of the single tracks, the Southern Railway Company finds it difficult to maintain the schedules of some of its passenger trains as now scheduled, and will, in consequence, in the early part of January ensuing, revise these schedules, putting them on the basis of slower speed with the expectation of being able to maintain them and believing that under the circumstances this arrangement will be more satisfactory to the public.

The double track work is being vigorously pushed and on other parts of the road where double track work is now under way, but where traffic is heavy, passing trains are being put in, and those already in extended, in order to facilitate the movement of trains—all such passing track work being done with the ultimate object of utilizing it as double track when double track work may be undertaken in these localities.

The improvement in passenger train movement, will naturally improve the movement of freight trains.

The Southern Railway Company has arranged to shorten its operating divisions, increasing the number from fourteen to twenty-seven; each one of these divisions to be in charge of a superintendent. Men now in the service will be promoted to the additional positions thus created. This arrangement, it is believed, will result in increased efficiency and will, it is further believed, promote the mutual interests of the public and the Company.

In the arrangements referred to the Company is developing and making effective policies initiated by its late President.

A Captain In the Ranks

By GEORGE CARY EGGLESTON

Copyright, 1914, by A. S. Barnes & Co., Publishers, 215 Fifth Avenue, New York

CHAPTER XII.

THESE were boys in Cairo, of course, and equally of course some of them were bad. The bad ones used to do things to annoy Robert's "Little Missie." Robert needed to thrash them upon every proper occasion, and he did it with a thoroughness that left nothing to be desired thereafter. When Robert had thrashed a boy that boy went to bed for repairs. And he was not to be reënted as to where and how he had received his bruises. That was because Robert always ended a fist encounter with a warning.

"If you don't want a double dose of this here you'll perhaps obtain 'um mentionin' de name o' de cullid gentleman wot giv it ter you."

And the victim usually "obtained." If he didn't it was presently the worse for him.

Robert had been born in the south. He had lived there till his fourteenth year. He had there imbibed certain doctrines of pugnaconic chivalry. There had been bred in his bone, the conviction that it was every strong man's duty to protect every woman and to punish any disrespect shown to her.

It was through one of Robert's battles that Guilford Duncan became acquainted with his hostess, Barbara Verne. That young woman very rarely appeared in the dining room, and so the young Virginian had scarcely more than met her when one morning on his way to breakfast he came upon a battle between Robert—"free man of color," as he loved to call himself—and three Cairo boys who had waylaid him in order to avenge the punishment he had given a few days before to one of them who had playfully hurled a brick through Barbara's kitchen window.

When Duncan came upon the battle-field Robert was backed up against a dead wall. Two of his adversaries had gone to grass, and the third was hesitating to prosecute the attack alone. Seeing his hesitation, Bob—great strategist that he was—instinctively decided to convert his successful defense into a successful offense without delay. Quitting his defensive position against the wall, he rushed upon his remaining adversary, who promptly retreated without waiting to reckon upon the casualties.

Then Bob jumped upon his other and slowly rising antagonists, knocked them down again and hurriedly executed of each a "wish I may die" promise to let "Little Missie" alone from that day forth.

"Good for you, Bob!" exclaimed young Duncan. "But we'll make that promise more binding. Help me, and I'll take these young ruffians before Judge Gross and compel them to give bonds for good behavior."

It didn't take long to arraign the culprits, prove that they had thrown a brickbat through Barbara's window and secure an order of the court requiring them to give considerable bonds for good behavior in future.

This brought their parents into court and subjected them to a good deal of annoyance and trouble. They had to give bonds, and, more troublesome still, they had to control their boys. Then again the newspapers published the facts.

In this way Guilford Duncan multiplied his enemies in Cairo. But he had a deep seated conviction that it is worth a man's while to make enemies by doing right. In this matter he had done only right. He had invoked the law for the protection of a woman, and he had completely accomplished his purpose. He cared nothing for the revellings that ensued, but Oher, the man of brains and character who edited the principal newspaper of the town, took the matter up and made much of it.

"This town is barbaric," he wrote in his editorial columns. "It owes sincere thanks to Mr. Guilford Duncan for teaching it that law is supreme; that it is to the law we should appeal in every case of wrongdoing. The parents of the young hoodlums who have been bound over to keep the peace have long needed this lesson. This newspaper rejoices that the lesson has been given in so emphatic and conspicuous a manner."

Two of his adversaries had gone to grass, Mr. Duncan, upon the quality of his citizenship and upon the results of its activity.

The entire talk of the little city was of Duncan's activity in haling the hoodlum sons of highly "respectable" parents before a magistrate as a consequence of their battle with a "nigger." On that subject tongues wagged busily pro and con. The friends of the aggrieved parents who had been forced to give bonds for the good behavior of their ill regulated offspring indignantly made a "race issue" of a matter which had nothing whatever to do with race prejudice.

They could not understand how a southerner and an ex-Confederate soldier could thus have taken the part of "niggers" against "respectable white

boys." Others who were clamorous for the "rights of the negro" rejoiced in Duncan as a convert to their doctrine.

Both were wrong, of course. Neither in the remotest way recognized the real impulses of his act—namely, the impulse to protect a woman and the impulse of a law loving citizen to insist upon the equal enforcement of the law for the sake of good order in the community. But Duncan concerned himself with none of these things. He had done his simple duty as a man and as a citizen, and he had no care whatever for consequences.

And yet the consequences were such as vitally affected his entire career in more ways than one. His performance brought him for one thing into close acquaintance with a certain young woman whom he had scarcely known before and whose destiny it was to influence the entire future course of his life.

It was Duncan's habit to sit long and smoke over his final cup of coffee at the evening meal. The other table boarders were accustomed to hurry away as soon as they had swallowed their supper, leaving him in sole possession of the dining room.

On the evening of the day on which the events already related occurred he sat as usual smoking, sipping his coffee and reading the evening newspaper. Presently Barbara Verne entered and with a manner in which extreme shyness was mingled with a resolute determination to do the duty that lay before her approached young Duncan and held out her hand. As he arose deferentially to greet her, taking her proffered hand in his, he said:

"It was very kind of you to protect Robert, you know—and me. I'm Barbara Verne. Thank you ever so much."

As she made her little speech the brave but timid girl looked him in the eyes with the embarrassed front of a child set to do a duty mingled with the calm composure of a woman who knows and cherishes the dignity of her womanhood.

Duncan protested that no thanks were due him for doing his simple duty, and after a word or two more the girl quitted the room, while Duncan, gallantly bowing, held the door open for her.

The little interview lasted for less than two minutes, and not an unnecessary word was spoken on either side. Yet it seemed to Duncan an event of consequence, as indeed it proved to be. Something in the girl's voice or manner, or something in her eyes, or something in her grace of movement, her bearing, her mingled simplicity and dignity, or something in all these combined, had mightily impressed him. He had seen little of women in any intimate way, and, while he hoped to marry and to beget children, as every sound souled man must, he had thought himself quite indifferent to women in their individual personality. But somehow he could not feel so with Barbara Verne, and later in the evening he scoured himself for his folly in continuing to think of her to the interruption of the reading he had set himself to do.

"I will call upon her and become really acquainted with her," he said to himself. "That will cure me of this strange and utterly absurd fascination. Of course the girl must be commonplace in the main, and when I come to realize that, the glamour will fade away."

CHAPTER XIII.

GUILFORD DUNCAN carried out his purpose, as he thought, with a good deal of tact. He began by calling not upon Barbara, but upon three or four other young women—a thing he had never done before. He thought in this way to make his call upon Barbara, when it should come, an inconspicuous event. To his surprise, his entrance thus into society created something of a flutter among the women folk, especially the married women who had marriageable daughters or who were matchmakingly interested in other young women not their daughters; for, Guilford Duncan, the moment he was thought of as a social factor and a matrimonial possibility, was seen to be the "best catch" in the little city, the most desirable young man in the town. He was young and distinctly handsome. He was a man of education, culture and superior intelligence. His manners were easy, polished and very winning. Especially he treated women with a certain chivalric deference that pleased them even more than they knew. Captain Will Hallam's wife, who was the social leader of the city, said to him one day:

"You must be careful what you do in the way of paying attention to young women. A very little attention on your part is apt to mean a great deal to a girl—and still more to her mamma."

"But why should it?" asked Duncan in unfeigned astonishment. "Why should ordinary social courtesy on my part mean more than the same thing means in the case of any other young man?"

"I don't know that I can tell you," she answered. "At least I don't know that I can make you understand." "I sincerely wish you would try. I certainly do not want to"—He hesitated and did not complete the sentence.

"Oh, I know all that. I know what you mean, because it is what I mean. I tell you that if you pay more than just a little and a very casual attention to any girl, the girl and, worse still, all her elder female relatives are likely to misconstrue your motives. You are in serious danger of breaking your own hearts and winning for yourself the reputation of being that most detestable thing—a male flirt."

"But really, Mrs. Hallam," interrupted the perplexed young man, "I don't understand. I have not called more than twice upon any one girl, and"—

"Well, don't. That's all I've got to say."

Duncan went away puzzled. He had intended to be very shrewd and circumspect in this matter. He had intended by calling once or twice upon each of several young women to deprive the calls he intended to make upon Barbara of any look of significance, and now before he had even begun to cultivate acquaintance with Barbara he found his small preparatory callings the subject of curiosity

and gossip.

He was resolved not to be balked of his purpose, however. He saw no reason to permit that. He would go that very evening to see Barbara, and he would repeat the visit from time to time until a fuller acquaintance with the girl should cure him of his fascination. Acquaintance must do that, he was persuaded.

Barbara Verne was not accustomed to receive visits from young men. She was almost too young, for one thing, or at least she had been almost too young until about this time. Moreover, her life was unusually secluded. She devoted all her time to her exacting household duties. Except that she attended church once each Sunday, she was never seen in any public place or anywhere else outside of her aunt's house or the house of her single friend, Mrs. Richards, a retiring matron, who neither received company nor went out anywhere. These two—the young girl and the middle-aged matron—were somewhat more than intimate in their affection, but apart from this one friend Barbara visited nobody. The young woman of the town did not think of her, therefore, as one of themselves at all. They regarded her rather as a child than as a young woman, though if they had troubled to think about the matter they would have remembered that she was as old as some of themselves.

When Guilford Duncan made his first call upon Barbara, therefore, that young person was very greatly astonished. She was in no way embarrassed. It was her nature to meet all circumstances and all events frankly and to do with conscientious faithfulness whatsoever she conceived to be her duty. So when Guilford Duncan called upon her she promptly put away her surprise and walked into the parlor and greeted her visitor not without some flustering trace of surprise at the honor done her, but with no touch of foolish embarrassment in her manner. Barbara was simply her own sweet, natural self, and when Duncan went away after his call the glamour of her personality was more strongly upon him than ever.

"She, at least," he thought as he walked toward the levee, "will not misconstrue my call, as Mrs. Hallam suggests. She is too womanly, too sincere, too genuine, for that. I shall call again very soon, though, now that I think of it, she forgot to ask me to do so. Never mind. I'll manufacture some excuse—oh, by Jove, I have it! 'The Cotillion' is to give a fancy dance a week from tonight. I'll invite her to go. I wonder if she will accept. I hope so, but even if she doesn't the invitation will give me ample excuse for calling. I'll do it tomorrow evening."

Not Very Logical.

Poulney Bigelow, says the New York Tribune, was arguing with a New York man about the Panama canal.

"You are not very logical," Mr. Bigelow said at length. "Indeed, you are as illogical as an old man I used to know in Berlin."

"This old man, umbrella in hand, set out one morning on a shopping trip. He visited the shoemaker's for shoes, the hatter's for a hat, the grocer's for groceries, and so on, and when he got back home in the evening he found that he had left his umbrella behind him somewhere. Accordingly the next morning the old man set out again in quest of the lost umbrella. He was unlucky at first. The seventh shop he visited was the one wherein his umbrella turned up.

"Well," he said after thanking the shopman as he started out with the recovered umbrella under his arm; "I must say you are more honest here than they are at those other shops!"

KODOL is manufactured in strict conformity with the National Pure Food and Drug Laws Sold by Jackson Drug Co.

The Strenuous Life.

Frederick Peterson, M. D., president of the New York Neurological society and member of the New York lunacy commission, says that in the life in New York city the friction is greater than in any other known existence endured for long periods of time by large numbers of people. Each day finds presented the proof that more and more we are verging on the limits of human endurance.

A liquid cold relief with a laxative principle which drives out the cold through a copious action of the bowels and a healing principle which lingers in the throat and stops the cough—that is Kennedy's Laxative Cough Syrup. CROPS.

The 1909 crop of potatoes in this country is estimated at 27,000,000 bushels compared with 253,000,000 in 1905 and 234,000,000 in 1904.

The peanut crop in the United States now amounts to 11,000,000 bushels annually. The total sales amount to between \$8,000,000 and \$10,000,000.

Rubber is steadily increasing in value owing to the growth of the automobile, bicycle and electrical industries, and this year's crop for the whole world is estimated at 75,000 tons, valued at \$120,000,000.

"Everybody Should Know."

The Kentuckians.

Writing in the London Mail in a series of articles entitled, "America Revisited," Bart Kennedy says: "The Kentuckians are undoubtedly the finest people in the United States. And in some respects they are the finest white people in the world. They carry about them an atmosphere of manners and breeding, and though they speak with a very long drawl, their voices have not the harshness of the voices of the Americans in the east."

The Kaiser and Brown Boots.

The German emperor is a regular frequenter of the fairs of Norway, but he allows no liberties to be taken with his sacred person. On one occasion when the Hohenzollern anchored off a little town the German consular agent, as in duty bound, went aboard to pay his respects. But not being possessed of a uniform, it did not appear to him necessary to appear at midday in the comic opera kit of evening dress on board the vessel. He therefore compromised the official correctness of a frock coat by brown boots. His majesty, however, resented the informality, called the attention of the consul general at Bergen to the soleism and announced his intention of ceasing to honor the place with any further visits.—London Exchange.

Pleasant For the Patient.

Dentistry as practiced in London, with all the latest appliances for preventing pain and drawing the teeth before the patient knows what has happened, is in sharp contrast to the methods still followed in remote country towns among the poor. A writer in the London Standard relates that he went into an apothecary's little shop to make some purchase. "He did not appear at once, and I heard two or three strange muffled sounds coming from a room at the back, half curtained off. I tapped smartly again, and this time the apothecary appeared. He was slightly flushed and smiling, and he said as he got down and wrapped up my goods: 'I'm drawing a tooth, and it won't come. I think it must be hooked up somehow.' Then, giving me my change, he went back to his patient."

Foley's Honey and Tar cures the most obstinate coughs and expels the cold from the system as it is mildly laxative. It is guaranteed. The genuine is in the yellow package. Jackson Drug Co.

To Measure Tiny Space.

An apparatus for measuring the seventy-millionth part of an inch has been made by a professor of Nottingham university, England. It works upon the principle of electric touch and consists of a fine micrometer screw and six levers. The apparatus is so sensitive and delicate that it is impossible to manipulate it before an audience. It is hung by rubber bands, covered with thick felt and must be worked at dead of night, when there is no traffic or factory working. The smallest distance that this mechanism measures is about the distance between a solid and a liquid molecule.

La Grippe and Pneumonia.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainable possible with the advanced knowledge with which the race is possessed. The critical period that determines its duration seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by Jackson Drug Co. 50c.
